

## WHAT TO RECYCLE OVER THE HOLIDAYS

Please remember to minimize your holiday waste by recycling all of the following in your gray automated recycling container or white bin:

- Gift Wrap (paper, cellophane, tissue paper, and plastic bubbles)
- Gift Bags (paper, card stock/cardboard, plastic bags made from #2 HDPE or #4 LDPE)
- Toy Packaging (card stock/cardboard, hard plastic, twist ties, and plastic clamshells if separated from the paperboard portion)
- Christmas Lights
- Christmas Cards (card stock, photo cards, and music on recordable cards if the paper is separated from the metal)
- Christmas Trees, either cut up into your green container or placed at the curb on your collection day – see [Christmas Tree Recycling](#).
